FoLix™

TRANSFORMING HAIR LOSS TREATMENTS WITH LASER

CAPTURE THE DEMAND

2 in 3 men
face hair loss
by the age of 35[1]

1 in 2 women
face hair loss
by the age of 50[2]

- 66% of women think about their hair loss once a day or more.[3]
- 44% of men between 16 and 24 years are 'worried' about hair loss.[4]

GROW WITH FoLix

FoLix™ is a revolutionary non-ablative fractional laser system using hair stimulation technology, providing effective, safe, and simple treatment for women and men.

First FDA-cleared

The first FDA-cleared fractional laser for hair loss treatment.

Proven results

Clinical studies show increase in hair count and improvement in scalp hair appearance.[5]

No anesthesia. No needles. No downtime.

Natural and safe - No chemicals

Leveraging the body's own processes for hair stimulation without chemicals.

Simple, 30 min procedure

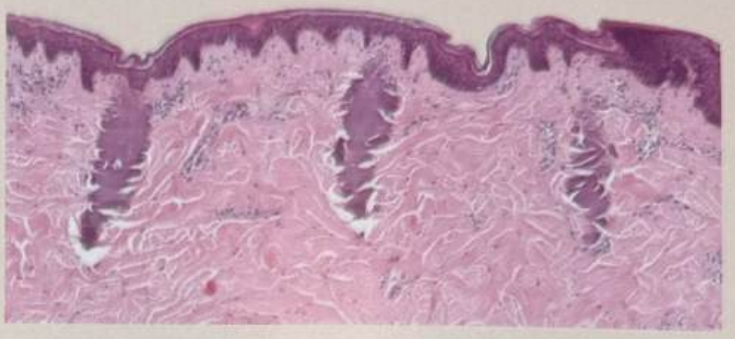

Simple to use, easy to learn, quick to treat.

TRUST SCIENCE
TRUST FoLix

Unlock Nature with Science

FoLix uses targeted laser energy for dermal coagulation, activating natural healing processes. This boosts blood flow, cytokine activity, and hair follicle stimulation.

Histology shows the columns of coagulative zones created after laser*

Clinical Studies Show**

10-18% increase in number of hairs per cm^2.

13-16% additional follicular units per cm^2.

"People are looking for non-surgical, non-pharmaceutical solutions, and that's where FoLix comes in."

Marc Avram, MD

Harvard trained, board-certified dermatologist who specializes in hair loss and hair transplantation. Clinical professor of dermatology at Cornell Medical Center.

"FoLix represents an opportunity to differentiate your practice with effective laser innovation from a global leader in medical aesthetics."

Neil Sadick, MD

A leading recognized dermatologist involved in the research of advanced technologies and treatments for hair loss. Clinical Professor of Dermatology at Weill Cornell Medical College.

*Taken on ex-vivo porcine tissue

CLINICALLY PROVEN RESULTS

FoLix

SIMPLE TO USE
EASY TO LEARN
QUICK TO TREAT

Fast, 30 minutes treatment with no anesthesia and minimal discomfort.

4-6 treatment sessions to achieve results.

4 weeks intervals plus maintenance 2-3 times a year.

FoLix

Intuitive User Interface

Incorporates FDA-cleared settings to ensure efficient, consistent treatments.

FoliCool Tip (Patent Pending)

Enhances safety and comfort with constant cooling. Designed to separate the hair for smooth treatment.

FoLix technology

Unique algorithm ensures optimal irradiance and area coverage to maximize operational efficiency, patient comfort, and clinical outcomes.
